Carrier is pleased to announce that an air conditioner, three heat pumps and a gas furnace have received a coveted Best Buy distinction from *Consumers Digest*.

Carrier Products Recognized for Performance with Your Comfort in Mind

Willis Carrier invented modern air conditioning in 1902. Over 100 years later, Carrier continues to be on the forefront of leading-edge innovation and unsurpassed standards of excellence. Our engineers and dealers strive to provide homeowners with the most innovative indoor comfort solutions available. Today, Carrier is proud that an air conditioner, three heat pumps and a gas furnace were recognized by *Consumers Digest*.

A Best Buy in Air Conditioners

"The combination of terrific energy efficiency in the price range, a low decibel level of 65, which beats the next closest model's noise output by three decibels, and the capability to be matched with a sophisticated control system to maximize air circulation and minimize drafts and hot spots make the **Infinity® 21** 24ANB1 a repeat Best Buy selection."

Consumers Digest

A Best Buy in Gas Furnaces

"The **Performance™ Boost 80** has the best combination of performance and warranty that we found among models that are in this price range. This line has the widest range of inputs among economy models that have a blower that uses an electronically commutated motor. This type of motor makes the blower quieter and more efficient than are blowers that are in models that use a standard motor."

Consumers Digest

A Best Buy in Heat Pumps

"The **Infinity® 19** is a repeat Best Buy selection, because this two-stage model is not only the most efficient heat pump that's in this price range, but it also is one of the most efficient at any price. Additionally, no other model that's in this price range can match this model's reliability and quiet operation. The variable-speed 20.5 SEER **Infinity with Greenspeed®**, which is also a Best Buy, is the most efficient and the quietest series of heat pumps that we found. Its 13.0 HSPF rating is higher than that of any other series that we evaluated. The two-stage **Infinity 16** which has a SEER of 16.0, is also a Best Buy."
